GABRIEL ÁLEF

DATA ANALYST | BUSINESS INTELLIGENCE
Brasília, DF, Brazil | +55 (61) 98671-6339 | gabrielalefti@gmail.com
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Data Analyst experienced in BI solutions, from requirements gathering to data integration and modeling, dashboard development and user validation. At IZZI, integrated four systems using Python and PostgreSQL, developed 15 Power BI dashboards and automated a consolidation process from five days to five minutes. Worked with financial and operational metrics to support managers and teams.

TECHNICAL SKILLS

Business Intelligence: Power BI, DAX, Power Query, KPIs and management dashboards.

Languages and databases: Python, SQL, PostgreSQL, MySQL and Pandas.

Integration: ETL, REST APIs, Requests, SQLAlchemy, data transformation and validation.

Modeling and analysis: relational and dimensional modeling, facts and dimensions, exploratory analysis and metrics.

Tools: Excel, Git and GitHub.

PROFESSIONAL EXPERIENCE

Data Analyst | IZZI Contabilidade *Apr 2025 - Aug 2026*

- Integrated data from **four corporate systems** (Gestta, Onvio, Notion and Conta Azul) through REST APIs, using ETL pipelines built with Python, Pandas, Requests, SQLAlchemy and PostgreSQL; standardized structures and identifiers.
- Developed and maintained **15 Power BI dashboards**, including six for management, covering financial metrics, productivity, SLA, customer portfolios and team performance.
- Automated a data consolidation and preparation process, reducing execution time from approximately **five days to five minutes**.
- Built historical delinquency analyses and customer segments that supported collection strategies and contributed to an approximately **70% reduction in delinquency**.
- Modeled fact and dimension tables and moved Power BI transformations to Python/PostgreSQL; gathered requirements, conducted testing and user validation, and presented findings to management.
- Analyzed customer onboarding bottlenecks and supported workflow improvements with metrics and follow-up steps, helping reduce dropouts to near zero in the revised process.

Federal Regional Court of the 1st Region *Oct 2023 - Dec 2024*

Development, Data Analysis and IT Intern

- Supported data collection and normalization in Excel, Power BI dashboards, administrative processes in SEI and internal IT support.

Ministry of Justice *Mar 2023 - Sep 2023*

Administrative and IT Intern

- Supported data extraction and cleaning in Excel, Power BI dashboards and administrative process organization.

SELECTED PROJECTS

Operations Management | Operational Integration and BI *Python and PostgreSQL*

- Gestta and Notion API integration, Pandas processing and SQL views. Public version with synthetic data, key and join validation, and transactional data loading in PostgreSQL.

Repository: gestao_geral

Financial Management | ETL and Dimensional Modeling *Python and SQL*

- Excel-to-PostgreSQL ETL using SQLAlchemy, nine dimensions, five fact tables and UPSERT. Public version with synthetic data and reconciliation of record counts and values for analytical use.

Repository: gestao_financeira

EDUCATION

Technology Degree in Systems Analysis and Development | Centro Universitário Estácio | Completed Dec 2024.

MBA in Data Science, Artificial Intelligence and Analytics | USP/Esalq | In progress; expected Dec 2027.

CERTIFICATIONS AND LANGUAGES

IBM/Coursera: IBM Data Analyst Professional Certificate. **DSA:** Microsoft Power BI for BI and Data Science; Python for Data Analysis and Data Science. **Fundação Bradesco:** Advanced Excel.

English: advanced; completed a six-year course at CIL de Ceilândia. **Portuguese:** native.
